

USING THE PSWC WINCH IN CLOSED CIRCUIT APPLICATION

1. If the PSWC is to be used in a closed circuit application, where the cable is attached at two points on the winch. the ratchet stop mechanism must be removed. Damage may be caused to the equipment if the stop mechanism is used..

RATCHET
STOP
MECHANISM

2. Remove the ratchet stop mechanism by removing the nut & bolt on the unit. Remove the device before installing the cables onto the drum.

DO NOT USE THE PSWC WINCH WITH A CLOSED CIRCUIT APPLICATION WITH ROTATING BOOMS OR ARTICULATED ARMS WHEN THE RATCHET STOP IS IN PLACE!
