

# CMSL SERIES BELT DRIVE FANS

All fans on this sheet are rated in accordance with AMCA Standard 210 and bear the AMCA seal.

All CAR-MON fans are equipped with high efficiency, non-overloading, backward inclined wheels to provide proper and economical operation. All parts in the air stream are coated with a polyester powder coating. Other standard equipment includes belt guard, variable speed motor pulley (2-groove pulleys standard on all fans 1 HP and greater), heavy gauge welded steel construction and adjustable motor base for proper alignment and belt tension.

All fans are run tested at factory and checked for compliance with our rigid balance standards.

NOTE: For performance data, refer to catalog F2-97 "CM-SL Series Performance Tables".
