

CAR-MON SERIES CMD DIRECT DRIVE EXHAUST FANS

Clockwise rotation wheels and bottom horizontal discharge housing are standard. Either rotation and any one of 8 different discharge positions may be specified at time of order. All CAR-MON fans are equipped with high efficiency non-overloading backward inclined wheels (except CMD-5) to provide proper and economical operation.

Note: Fan illustrated is clockwise, bottom horizontal configuration

SPECIFICATION: The fan shall be the standard product of a United States exhaust system manufacturer. Fan wheel shall be backward inclined, non-overloading type with single thickness blades and be statically and dynamically balanced. The mating surfaces of the inlet cone and fan housing shall be caulked prior to assembly. The inlet cone shall be assembled to the fan housing using hex head cap screws bolted to threaded inserts welded to the interior of the housing, self tapping screws are not acceptable. All surfaces of the fan shall be painted with a polyester powder coating. The fan motor shall be an industrial grade foot mounted type, horsepower and electrical characteristics as specified. The fan shall be **Series CMD** as manufactured by Car-Mon Products, Elgin, IL 60123
